This was an informal meeting which started around 6:30pm and went until about 8pm. The EDSC currently has 3 members and did not meet quorum. No votes were taken and instead the committee members welcomed and addressed the feedback and comments of the residents who attended.

Topics covered informally included increasing committee communication and participation, the consideration of need for professional support for attracting aligned developments for NY, assurance that the EDSC does not, nor does it intend to have, exclusive purview of the TIF funds, and working with the Select Board to achieve further clarification of the committee's charge.

Respectfully submitted,
