

Living Well Minutes of 1/7/2019

Attending: Donna Palmer, Pasha Marlowe, Ginny Vandyke, Priscilla Brobst, Steven Palmer

Held at the town office meeting room at 1PM

Girl Scouts: unable to attend, item not discussed

Cribbage Tournament: Ginny will contact the secretary of the Congregational Church to arrange details with the use of the hall for the 9th. It was agreed the prize money will be: \$125, \$75, \$50 for the top point scorers. A 50:50 raffle will be offered. Refreshments will be served and be provided by members of the committee(Ginny, Priscilla, Steve, Pasha) and others who we may reach out to, like Martha Leggat. Donna is managing getting the word out and about. Pasha will speak to John to explore what could be done to encourage school children to participate. The young persons division is intended for those under 16. No prize money is offered but there will be a trophy. Their division will run from 9 to 11 while the adult division will run from 9 until 12.

Donna and Pasha will cover the registration table. Priscilla may be able to help during the morning. Gay, if you are reading this we are hoping to get you to help and maybe Rob to play again?? The latest news has unfortunately delayed our ability to set up in the afternoon. Chicken pot pie activity is requiring the use of the community room in the afternoon so we will have to learn from Ginny when the earliest is that we can get access to set up. And, the cribbage boards and cards are in the storage shed which Steve will retrieve.

Traffic Data: Steve reported on the results of the data collected on both incoming portions of route 115. The data clearly indicates there is an issue of speeding however due to parameters used in the original collection and reporting another run at collecting information will necessarily take place. Living Well will be coordinating this with Public Works. A copy of the data first edition print out will be emailed to all committee members.

This baseline of information will be used to help better understand speeding as it occurs in the center of town and what the town may consider among options to slow vehicular speed.

Kiting the Town: The banner is stil in process. Donna has been given the green light to get that made. When the banner arrives the committee can then decide on a date for the actual kite bombing. Steve will work to reinforce the kites.

Next meeting Feb 11th, 1 PM.
Meeting adjourned at 2:30
