

**ORDINANCE FOR THE DISPOSAL OF SEPTIC WASTE
AT THE FACILITIES OF THE PORTLAND WATER DISTRICT**

WHEREAS, the Town of North Yarmouth has designated the facilities of the Portland Water District as the septic waste disposal facility for the Town; and

WHEREAS, the Town must pay a fee to the Portland Water District for the disposal of all septic waste delivered to the facility, the Town must issue permits to those who transport septic waste which would allow access to the facility, therefore the following regulations shall apply:

I. License to Operate

Prior to transporting any septic waste originating within the boundaries of North Yarmouth, the transporter of such material shall first obtain a license from the North Yarmouth Board of Selectmen.

Any transporter requesting such a license shall do so on an application provided by the Town. Required information shall include, but is not limited to:

- The Corporate and personal name of the applicant,
- Address & phone number of the applicant,
- A description, including the make, year and registration number of the transporting vehicle(s).

The applicant shall also provide the Town with suitable proof of liability insurance in the amount no less than \$300,000. The application shall be accompanied by a fee, set annually by the Board of Selectmen, which shall cover the cost of notice of a required public hearing. The Board of Selectmen shall, after notice, hold a public hearing within 20 days of the receipt of the application, after which a license may be issued. All licenses issued shall expire annually on the last day of December.

II. Permit to Deliver Waste to Designated Facility

No septic waste may be delivered to the designated Portland Water District facility without an individual permit issued by the Town Clerk for waste originating in North Yarmouth. Permits shall be available at the Town Office during normal business hours. Information required for each permit shall include the name of the owner or occupant of the dwelling or establishment of origin, address and amount of gallons to be delivered. There shall be no fee for said permit.

No waste will be accepted at the facility without a permit issued by the Town of North Yarmouth.

III. Violations

Violations of the provisions of this ordinance shall result in the suspension or revocation of the license issued. Any suspension or revocation shall be ordered by the Board of Selectmen only after a hearing regarding said violations.

IV. Invalidity

If any portion of this ordinance shall be found to be invalid or unconstitutional, such portion shall not effect the validity of the remaining portions there.

This ordinance shall replace an ordinance previously enacted entitled “Ordinance for the Regulation of Transportation of Hazardous Waste and Industrial Waste”, which, with the passage of this ordinance, shall be deemed repealed.
