New Business

We discussed objectives

Discuss and reviewed previous town meeting

Overall better response shown by attendance on Saturday

Consensus seem to be people are wanting a municipal campus and responsible housing

Follow up questions

Was it over the price of what they wanted? 285k per house

Where is the master plan going to be built?

Save the gym put but the municipal offices there too

Senior housing is good but will it be affordable

Will it be available for the people?

We spoke of possible sites even though this is not our decision

Build at NYMS

At the town building (Old Sharp field was brought up)

At the original space

We discussed original Wescustago committee

Was there original talk about space too small

Does Wescustago need to remain a free standing building

Parking at existing spot too limited

Sites wants to make sure we are on the right track after the meeting...says we all think we know what this is but are we really thinking the same thing. We need to make sure we define what we are doing and lay out functions, uses, totals and everyone else knows what we are doing.
