Question we need to ask Barrett Made
Are both wings the same length?

Windows

- design of a1 preferred
- remove wrap around window nearest end with door
- center the windows on the left wing closest to the patio
- proportional number of windows centered on the right wing farthest from the patio

Brian makes the motion

Jen seconds the motion

All in favor

Entrance side windows

- On the patio side mirror the windows on the side of the door and the two sets of double window above the awning same as original Wescustago as shown in photo on northyarmouth.org

Darla makes the motion

Brian seconds the motion

All in favor

Dormers

- Makes a motion we move forward with the building design with no dormers like a1 and a2
- Brian makes the motion
Kevin seconds the motion
All in favor

That we have an overhang on the entire roof line

Darla makes the motion

Second by Kevin

All in favor

False porch

- Confirm that we do not want an egress or ingress space where south side porch is in a2
- We want to reserve this space for something more artistic and expressive of the buildings character but still window like

Brian makes the motion

Kevin seconds the motion

All in favor

To accept minutes as amended from 12/14/17

Kevin makes the motion

Paul seconds the motion

All in favor

Moving forward

Rosemary and Brian to set up meeting with Barrett Made to go over changes

See one more sketch with changes

Send via email to all for yes or no response and discussion

Rosemary recommended we break into subcommittees to help move forward

Meetings Jan 4th and Jan 11th

Meeting Adjourned
