Natural Resource Protection Act Permit by Rule Application for Notification for Activity Adjacent to a Protection Natural Resource have received an approved by the State.

The third party peer review of the Stormwater plan performed by Acorn Engineering was received and changes were made to the plan to address any items of concern indicated in the report.

Board members discussed a few questions about the Maine DEP permits with the applicant. Audrey Lones stated for the record that the DEP in terms of stormwater management system determined that under Section 10, C Flood Standard, that the post development peak flow from the site will not exceed the pre-development peak flow from the site. The peak flow of the receding waters will not be increased as a result of the stormwater run off from the development site. She indicated that the Board is aware of the concerns of some abutters.

In the detailed findings on page 12, based on the DEP conclusion G, the activity will not unreasonably cause or increase the flooding of the alternation area or adjacent properties nor create an unreasonable flood hazard to any structure.

Jeff Read noted that one of the conditions in the DEP report is requirement for a third party inspector would be hired during construction. Due to the amount of area that will open and being worked on through construction/development of the roadway the DEP thought it was appropriate that an independent third party inspector be hired to report directly back to DEP. Most of his concern will be erosion and sediment control and migration of water leaving the property.

Audrey Lones motioned to find the final application as complete for the Major Subdivision for Village Center Estates Phase II project; Sandra Falsey seconded the motion. Discussion. **Vote 3/0**

b. Site Plan Review – Fire Company Fire Barn Final Approval

Greg Payson, North Yarmouth Fire/Rescue Chief, on behalf of the North Yarmouth Fire Company, provided a recap on the Fire Barn project. He indicated there were not a lot of update to discuss except for the preparing the lease which was discussed at a recent Select Board meeting and due to the recently approved Land Use Ordinance changes approved at the June 2021 Town Meeting, the setback requirement that they requested should not be an issue any longer. Greg indicated that the only ADA requirement that is needed is the entrance/egress, no bathroom is needed.

Fundraising has been on hold until the approval has been received for the project.
