North Yarmouth is working with Vision Government Solutions (VGSI) to conduct a town-wide revaluation in 2026.

A revaluation updates your home's value to match today's market. This keeps taxes fair. A higher value does not always mean higher taxes. While some bills may go up, others will stay the same or even go down. We are doing this to follow Maine law and make sure the town's tax burden is shared equally among all residents.

Can't make it to the meeting? A live stream and recording will be available through the town's Meetings on Demand.
