

PakTech Recycling: Not In Your Recycling Bin, But at the Store!

Did you know PakTech handles (AKA craft beer carriers) CAN'T be put in your recycling bin?

EcoMaine can't recycle them...but Allagash Brewery does.

Thanks to a new collaboration between the North Yarmouth Waste Reduction Committee and North Yarmouth Variety owners Dan & Hannah Richards, you can save the trip to Portland and recycle your Paktech handles in town.

Find the new PakTech recycling bin outside (under the awning) at **North Yarmouth Variety.**

Other Recycling Options at Allagash Brewery

From the drop box at North Yarmouth Variety, our collected Paktech handles will be brought to the Allagash warehouse where they are bailed and picked-up by a local recycling company. From there, they can be made into composite lumber, flower pots, pipe, park benches and more.

More Good News! In addition to Paktech can carriers, Allagash collects:

- natural corks
- bottle caps
- air pillows
- metal bottle cages
- brown paper
- bubble wrap

If you bring a bag of these items to their brewery, you will get a punch card and your first punch on the card. Six punches gets you a \$10 Allagash gift card!
