Clearing Snow from Fire Hydrants

It's that time of year when we need our communities help. If you have a hydrant near your home please shovel a clear path to and around the hydrant. This will save a great amount of time if there is a fire emergency at your home or in your neighborhood. Thank you for helping keep you and your neighbors safe this chilly winter!

Winter Sand for Residential Driveways

Winter sand is available for residents' personal use. Each residential dwelling is eligible for up to 20 gallons (four 5 gallon pails) of sand per storm. The use of municipal sand for the sanding of private roads is prohibited.

Road Commissioner tips on Public Works snow plowing in our community.

- Be patient and keep a safe distance behind our working snow plows.
- Never pass a snow plow.
- Don't crowd the plow
- Move Aside and Provide Room: Snow plows often drive along the centerline of a roadway to remove snow.
- Be aware of reduced visibility.

*Take extra time during the winter months when driving.
The road conditions can change dramatically.
Thank you!
