Charter
COMMUNICATIONS

On or after December 8, 2016, Charter Communications (formerly Time Warner Cable) will begin removing the analog format of channels from our lineup and move toward delivering a higher-quality, digital-only experience to our customers to provide better picture and sound, more HD channels and more On Demand choices.

As part of this change, some channels will be exclusively offered in a digital format, and will require the use of digital equipment in order to continue to view the channels. Customers in your community are being notified of these changes at least 30 days prior to implementation.

Don't forget to **set your clocks back 1 hour on Sunday, November 6th** and **change your smoke detector batteries**. Smoke detector batteries should be changed twice a year so an easy reminder is to do it when we begin and end daylight savings time!
