

Each year 5,000,000,000,000 (5 trillion!) plastic bags are produced around the world. Plastic bags have a long life, taking up to 1,000 years to disintegrate completely. Americans alone toss 100 billion single-use plastic bags each year. Swapping your plastic bags for a reusable alternative helps keep plastic out of our environment and can save you money, too!

NORTH YARMOUTH RECYCLING COMMITTEE PRESENTS
SIMPLE SUSTAINABILITY SWAPS

SINGLE-USE
PLASTIC BAGS

WAXED PAPER BAGS

REUSABLE SILICONE BAGS

GEAR UP FOR PLASTIC-FREE OCTOBER!
