Question from last meeting - Are both wings the same length?

- The wing on the right looking at the building (from route 9 side) is larger. The wing on the left in addition to the patio equals the same length as the wing on the right.

Contest idea for window area

- Targeting to have any information needed all gathered by January 18th no later than January 25th
- Discussion of art contest for front window
- Perimeters
- Call superintendent office for info on 1% of art budget who do they reach out to artists

- People mentioned as some who would be interested in submitting a design for the windows were:

 - John Brian North Yarmouth woodworker, Milliken RD
